

# Regulatory Information

## MP-11x

### Thank you for Choosing AudioCodes!

This important product information includes Regulatory and Safety information.

Before you start using this product, please read the Safety Instructions provided. These Instructions can also be downloaded from the AudioCodes Website at <http://www.audiocodes.com/library>. This document, the Installation Manual and User's Manual (as well as software files and other documentation) can be downloaded from the AudioCodes Website at <http://www.audiocodes.com/downloads>. Please check that all items as listed in the Installation Manual are supplied in the shipped package. If any items are missing or if you have any queries, please contact your AudioCodes sales representative. If your product was purchased directly from AudioCodes, then contact [support@audiocodes.com](mailto:support@audiocodes.com). If the product was purchased from AudioCodes' Distributors, Partners, or Resellers, then use the contact details provided by these sellers.

#### Industry Canada Notice (Applicable Only to MP-11x/FXO Models)

This equipment meets the applicable Industry Canada Terminal Equipment technical specifications. This is confirmed by the registration numbers. The abbreviation, IC, before the registration number signifies that registration was performed based on a declaration of conformity indicating that Industry Canada technical specifications were met. It does not imply that Industry Canada approved the equipment.

**FXO Ports:** The Ringer Equivalence Number (REN) for this terminal is 0.5. The REN assigned to each terminal equipment provides an indication of the maximum number of terminals allowed to be connected to a telephone interface. The termination on an interface may consist of any combination of devices subject only to the requirement that the sum of Ringer Equivalence Number of all devices does not exceed five.

#### Digital Device Warnings (Applicable Only to MP-11x/FXO Models)

This equipment complies with Part 68 of the FCC rules and the requirements adopted by ACTA. On the interface card module of this equipment is a label that contains a product identifier in the format US: **AC1IT00BMP11X3AC**. If requested this number must be provided to the telephone company.

The Telephone Company may make changes in the facilities, equipment, operations or procedures that could affect the operation of the equipment. If this happens, the telephone company will provide advance notice in order for you to make necessary modifications to maintain uninterrupted service. Should you experience trouble with this telephone equipment, contact: AudioCodes Inc., 2099 Gateway Place, Suite 500, San Jose, CA, 95110, phone number (408) 441 1175.

**Do NOT attempt to repair this equipment!**

**Facility Interface Code:** 02LS2

**Service Order Code:** 9.0Y

**USOC Jack Type:** RJ11C

If this gateway causes harm to the telephone network, the telephone company will notify you in advance that temporary discontinuance of service may be required. But if advance notice isn't practical, the telephone company will notify the customer as soon as possible. Also you will be advised of your right to file complaint with the FCC if you believe it is necessary.

#### Safety Notice

1. To avoid risk of fire, use 26 AWG or higher wiring to connect the FXS or FXO telecom ports.
3. Disconnect TNV circuit connector before removing cover.

Ports	Safety Status
Ethernet (100Base-TX)	SELV
FXO	TNV-3
FXS	TNV-3

### FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to connect the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
