

Product Notice No: 0075

Mediant 1000 Analog CPU (CMX) Discontinued

A. Notice Subject

AudioCodes Mediant 1000 **Analog** Gateway's central processing unit (CPU) will be supported up to SW Release 5.6. From SW Release 5.8, the gateway will support only the "Digital CPU".

B. Notice Date

January 20, 2009.

C. Notice Effective Date

January 25, 2009.

D. Notice Details

Mediant 1000 currently supports two CPU modules:

- **Analog CPU Module (FASB00437):** supports only the analog line interfaces (i.e. FXO/FXS)
- **Digital CPU Module (FASB00423):** supports all types of interfaces (including mixed analog/digital configuration)

Both CPU's are supported in SW Release 5.6. However, starting from SW Release 5.8, only the Digital CPU will be supported. Starting January 25, 2009, all Mediant 1000 gateways will be shipped with the Digital CPU only.

Note that AudioCodes will maintain a stock of the Analog CPU's for RMA and spare parts.

E. Product Migration or Replacement

Customers currently implementing Mediant 1000 with the Analog CPU (FASB00437), who would like to upgrade to SW Release 5.8, can replace the Analog CPU with the Digital CPU (M1K-CPU-D).

F. Affected Product Part Numbers

M1K-CPU-A, M1K-CH-AN-3, Mediant 1000 (ordered with "Analog Chassis")
