

Customer Experience for Employees Beyond the Contact Center in Microsoft Teams

Voca CIC enables departments like the IT Helpdesk, HR department, Sales team, Security team, and Travel desks with lightweight customer experience capabilities directly integrated with Microsoft Teams.

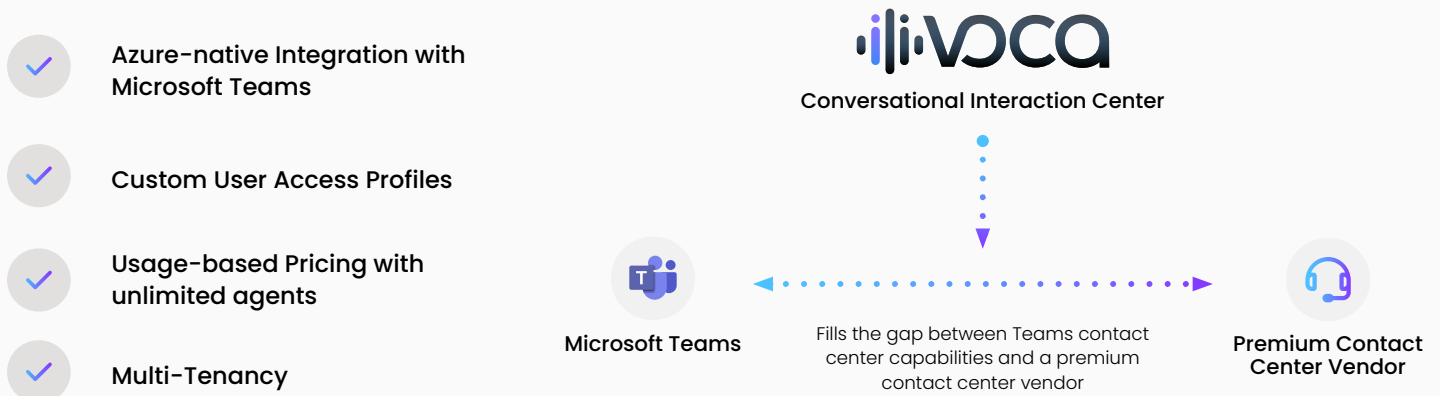

When Voca CIC is deployed on top of Microsoft Teams, every Teams user becomes a potential agent.

This is especially relevant for certain departments beyond the contact center, which provide internal and external-facing service. For example: IT Helpdesk, Sales teams, HR desks, Security teams, Legal team and Travel desks. We refer to the people who sit in these departments as internal agents.

Users situated within these departments provide ongoing service to individuals in and out of the organization. Now they can leverage relevant CX capabilities they've been missing like: Intelligent Routing, After-hour Call Handling, IVR, Queuing and Reporting.

By extending Teams with Voca CIC, you add the most critical components for providing quality service without the hefty price tag and "nice to haves" of premium contact centers that typically go far beyond everyday needs.

A perfect fit between not enough and "I'll never use this feature"

Every Teams User **Becomes a Potential Agent**

Who are Internal Agents? (Employee Experience)

Microsoft Teams users who provide ongoing internal & external service but don't reside in the main service desk.

Who are Back-office Experts?

Trusted & knowledgeable staff members who can assist an agent with a detailed solution to a complex customer issue.

Empowering IT Helpdesk **With Contact Center Capabilities**

 Skill-based routing to IT professionals based on inquiry type

 Automation of self-service scenarios (e.g. password reset)

 Queue up callers and handle after-hour routing

 CRM/IT ticketing screen or information pop-up

Empowering Sales Teams With Contact Center Capabilities

IVR segmenting callers across product groups, regions and customer types

After-hour call handling and VIP caller prioritization

CRM-based routing to account managers

Sales calls reporting and analytics

Empowering 24/7 Departments With Contact Center Capabilities

Auto-Attendant Company Directory powered by Conversational AI

Emergency call priority routing

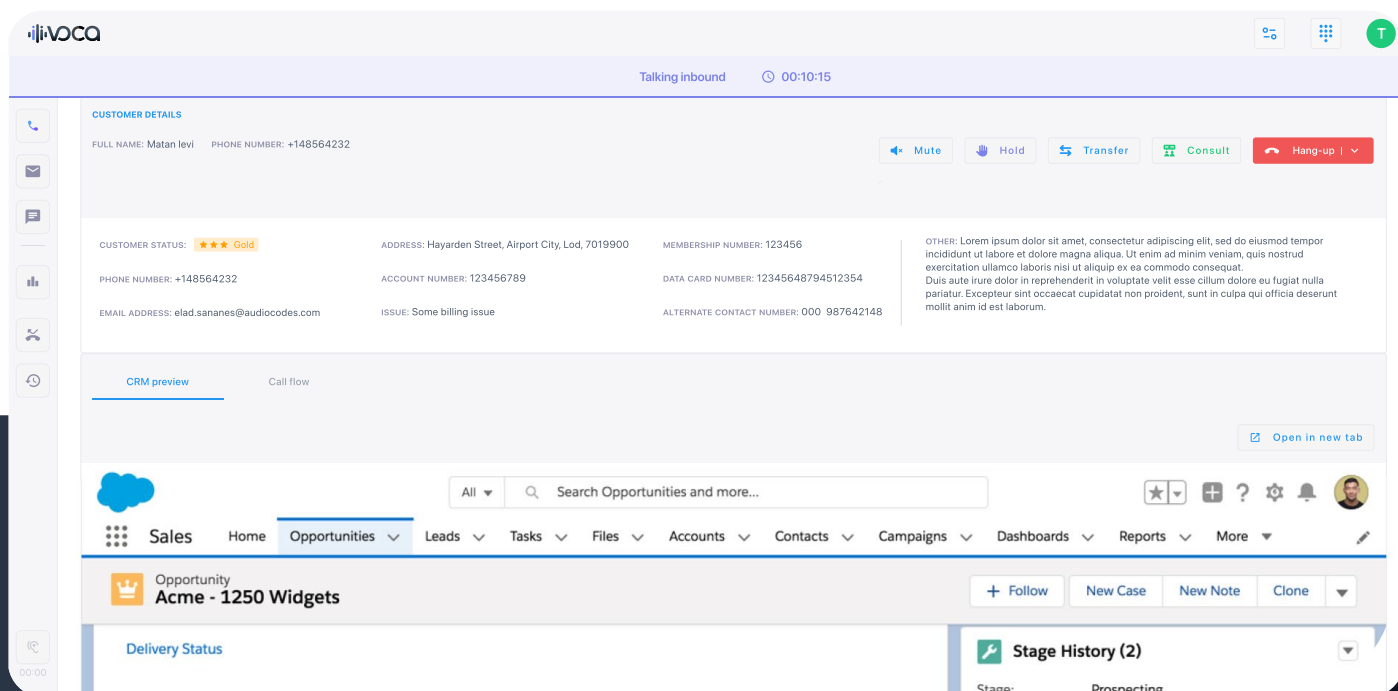

Managing 24/7, on-call agent availability with intelligent routing

Centralized team voicemail

Expanding CX Capabilities To Employees Beyond the Contact Center
