

End-of-Sale for Mediant 9030 and Mediant 2600 SBCs

Product Notice #0582

AudioCodes announces the End-of-Sale (EOS) of the **Mediant 9030** and **Mediant 2600** Session Border Controllers (SBCs), effective July 1, 2026.

Following this date, these products will transition to the General Service (GS) stage, in accordance with AudioCodes' [Product Lifecycle Policy](#).

Life Cycle Milestones

- **End of Product Sale Notification Date:** January 14, 2026
- **End of Product Sale and Last-Time Buy (LTB) date:** July 1, 2026
- **Last Time Shipment date:** September 1, 2026

Product Migration

The **Mediant 7000 SBC** is the replacement model for these EOS SBCs. The Mediant 7000 platform includes the following models, tailored to different capacity requirements:

- **Mediant 7100** - supports up to 1,000 sessions, ideal for mid-sized environments
- **Mediant 7500** - supports up to 10,000 sessions for large-scale deployments

The Mediant 7000 series fully supports the feature set of existing Mediant SBCs, ensuring a smooth transition without compromising functionality.

Affected Products

- Mediant 9030
- Mediant 2600

Announcement Date

January 14, 2026
