Product Notice #0367

AudioCodes SmartTAP™ 360° Interactions & Call Recording Solution Now Available in Microsoft Azure Marketplace

AudioCodes SmartTAP 360° interactions recording solution based on SIPRec is easily deployed directly from Azure Marketplace, with built-in integration with Microsoft Skype for Business, Direct Routing for Microsoft Teams, as well as integration support for any organizational PBX, using AudioCodes' Session Border Controller (SBC) and Media Gateway.

SmartTAP 360° is offered as a "Bring Your Own License" (BYOL) plan. Additional licenses may be purchased from AudioCodes Partners. Professional Customer support is available at an additional charge.

The default SmartTAP 360° download from Azure Marketplace supports the recording of up to 50 simultaneous calls, and equipped with 4 recording licenses for evaluation.

For more information, please refer to the SmartTAP SIPRec in Azure Marketplace Configuration Guide, or contact AudioCodes at smarttap@audiocodes.com.
