Product Notice #381

Release of One Voice Operations Center (OVOC) Version 7.8.126 for General Availability

We are pleased to announce the release of OVOC Software Version 7.8 (7.8.126) for General Availability (GA)!

This release includes many new exciting features as well as resolved constraints from previous releases. For a full description of the release, click here to download the *OVOC Release Notes* from AudioCodes website.

The software for this release is available for download from AudioCodes Services Portal at https://services.audiocodes.com (registered customers only).

Major Features

- New integrated voice-quality report generation - predefined and customized.
- New Floating License model type for SBC devices called *Flex-Pool License*, providing SBC capacity enforcement and eliminating the need for external connectivity to a cloud-based License Manager.
- OVOC configuration backup for fast server Disaster Recovery.
- New Device UMP Quick Connect including Single Sign-On support.
- Device Manager:
    - VIP device management for prioritizing device monitoring of key management personnel
    - Support for RX50 Conference Phone
    - Automatic provisioning of Polycom phones to specific sites
