

Product Notice No. 0174

AudioCodes Survivable Branch Appliance (SBA) Shipped with Migration Option to SBA Lync™ 2013

Notice Subject:

AudioCodes SBA's are shipped with an option to upgrade to SBA Lync 2013.

Notice Date:

April 17, 2013.

Notice Effective Date:

Immediate.

Affected Products

- Mediant 800 SBA
- Mediant 1000B SBA

Notice Details:

AudioCodes SBA is shipped pre-installed with the SBA application for Microsoft® Lync Server 2010. If for any reason, this SBA version needs to be re-installed (or recovered), you can use the USB dongle containing the SBA software image for Lync 2010, supplied in the SBA kit.

In addition, to enable seamless migration to Lync Server 2013, AudioCodes SBA is now also shipped with an additional USB dongle containing the SBA software image for Lync 2013. For instructions on installing this SBA version, refer to the following document (depending on your AudioCodes SBA product):

- Mediant 800 SBA Software Upgrade and Recovery for Microsoft Lync Server 2013 Configuration Note
- Mediant 1000B SBA Software Upgrade for Microsoft Lync Server 2013 Configuration Note

These documents can be downloaded from AudioCodes Web site (for logged in users) at <http://www.audiocodes.com/upgrade-to-lync-2013>.

Note: Please keep the USB dongles in a safe place for future reference.
