### Notice Subject

AudioCodes™ announces a new hardware revision for its' MediaPack™ MP-202B and MP-204B VoIP media gateways.

### Notice Date

January 2016

### Notice Effective Date

March 2016

### Affected Products

- MP202B/2S/SIP
- MP204B/4S/SIP

### Notice Details

This Product Notice is a formal notification by AudioCodes of the release of a new hardware revision (Rev. D) for the MP-202B and MP-204B VoIP media gateways. This new hardware revision offering provides the following enhancements and benefits:

- BroadSoft BroadCloud™ certification
- BroadCloud PacketSmart integration (applicable only to MP204B Rev. D)
- Optional 3G/4G dongle (applicable only to MP204B Rev. D)
- Link Layer Discovery Protocol (LLDP) support

## Affected Software

The table below lists the software versions supported by the old and new hardware revisions.

| Hardware Revision | Software Version |
|---|---|
| MP-202B / MP-204B | Version 3.0.3 and earlier |
| MP-202B Rev. D | Version 4.4.3 and later |
| MP-204B Rev. D | Version 4.4.3 and later |

> **Note:**
> - The two hardware revisions use different software files: *.rmt* for MP-202B/MP-204B and *.rms* for MP-202B/MP-204B Rev. D.
> - The supported software functionality and configuration of the two hardware revisions are identical.
> - New features will only be introduced in the new hardware revision.

## Identifying Hardware Revisions
