Product Notice #0469

New Microsoft Teams PowerShell Module Supported by UMP 365 and Live Cloud for Teams

Microsoft has announced a new Teams PowerShell Module (TPM version 4.30) and has deprecated the old PowerShell commands (cmdlets).

The new TPM 4.30 will be supported by AudioCodes' User Management Pack 365 (UMP 365) and Live Cloud for Teams solutions in Version 8.0.400, which will be delivered in June 2022.

If you are an MSO customer, please coordinate an upgrade with your local service team.

Affected Products

- Live Cloud for Microsoft Teams
- User Management Pack 365
