

New Long-Term Support (LTS) 7.4 Stream for SBCs and Gateways – 7.40A.600 –

Product Notice #0587

This Product Notice announces a new **Long-Term Support (LTS)** 7.4 software version stream for AudioCodes' Session Border Controllers (SBCs) and Media Gateways. The **7.40A.600** stream has now replaced 7.40A.500 as the new LTS, starting from baseline version 7.40A.604.077.

This LTS software version is available for download from AudioCodes [Services Portal](#) (registered customers only).

The 7.40A.500 stream remains supported for production use. However, no additional scheduled maintenance releases or fixes will be provided for this stream. Any issues discovered will instead be fixed in the 7.40A.600 stream.

Affected Products

All software and hardware-based SBC and Media Gateway platforms.

Announcement Date

March 30, 2026
