

What's the difference between Microsoft Teams Premium and Meeting Insights?

	Teams Premium	Meeting Insights
<i>System focus</i>	Personal. For individual productivity	Centralized. For organizational productivity
<i>Usability / info</i>	Limited. Spread across Teams chats. Not easily organized, trackable or searchable.	Dedicated. A web app (on Teams, browser, or mobile). Everything in one single place.
<i>Playback</i>	Limited. Using MS Stream (different app).	In Meeting Insights App.
<i>Speaker attribution</i>	Limited. Online users only (no meeting rooms speaker identification, no hybrid).	Any Meeting. Online, meeting rooms, hybrid, phone users (using voice fingerprint).
<i>Meeting search</i>	Limited. No central repository to search from.	Very Easy. By speaker, participants, time, date, subject, keywords, action item, etc... All in one place.
<i>AI Recaps</i>	Not Available Yet. Creates automatic meeting summaries, action items, chapters, and highlights.	AI-Powered. Automatic meeting summaries, meeting outlines, action items, questions asked/answered, and decisions made.
<i>Chapters</i>	Limited. By only PPT live (and transcription). No slide extraction.	Slides extraction and screen capture from all video sharing.
<i>Meeting Content</i>	Separate. Spread across users note tracking systems.	Combined. Meeting recording, summary, action items, notes, and decisions made are kept within the defined meeting in Meeting Insights app.
<i>Easy rollout in organization</i>	No. No CSM, no training.	Yes. Dedicated CSM to educate the organization and assist in organization adoption.
<i>Premium human transcription option</i>	Yes	Yes
<i>Cost</i>	High: \$10 per user/month	Low: \$2-5 per user/month
<i>Feature requests by users, vendor flexibility</i>	No	Yes
<i>Custom organization vocabulary</i>	No	Yes
<i>Live translations</i>	Yes	No
