

AudioCodes Business Phones

for Government and High-Security Environments

AudioCodes business phones are designed to meet the needs of government and regulated environments, combining secure communications, compliance readiness and enterprise-grade reliability. Certified for Microsoft Teams (including Microsoft Teams GCC-High environments), Webex Calling and Zoom Phone, these devices meet TAA procurement requirements and enable secure deployment within government cloud infrastructures.

With features such as a dedicated emergency call button and hardware mute for physical microphone control, our business phones help ensure user privacy and safety while delivering an intuitive calling experience, providing a trusted and secure voice solution for modern public sector communications.

Certified for leading UCaaS platforms
