Product Security Advisory

PHP2Shell Vulnerabilities for AudioCodes Fax Server App

Product Notice #0602

Two recently disclosed critical vulnerabilities in the PHP interpreter, identified as **CVE-2026-109618** and **CVE-2026-109619** (collectively known as “PHP2Shell”), affect the AudioCodes Fax Server application.

Our analysis has confirmed that **Fax Server version 2.6.250 and all earlier versions** are affected by both vulnerabilities.

AudioCodes has released **Fax Server version 2.6.251**, which upgrades PHP to **8.3.36** and resolves both vulnerabilities. The updated UI version is available for download here.

For upgrade instructions, refer to the 'Upgrade Instructions for Fax Server' section in the Fax Server Release Notes.

> All Customers are advised to upgrade to Fax Server version 2.6.251 **as soon as possible**.

Affected Products

AudioCodes Fax Server version 2.6.250 and earlier.

Announcement Date

October 28, 2026
