

Quick Guide

1. Introduction

Thank you for purchasing AudioCodes **RX-PAD Meeting Room Controller!**

RX-PAD is a center-of-room intelligent touch controller that provides quick and complete access to AudioCodes meeting room solutions. It enables capabilities such as one-click collaboration initiation with an integrated calendar, simple content sharing and camera adjustments, and much more, all while retaining a modest footprint on the conference room table.

The RX-PAD leverages plug-and-play simplicity to provide a productive and familiar Microsoft Teams meeting experience, requiring only a Power-over-Ethernet (PoE) cable for quick installation. See [here](#) for detailed information.

2. Shipped Items

Make sure you received the following items in the shipped box:

- ✓ RX-PAD
- ✓ Ethernet cable
- ✓ 12V 2A Power Adapter (100-240).

For Wi-fi connectivity, you must use a power adapter.

3. Positioning

Position RX-PAD on the table for optimal management. Use this figure as reference.

4. Cabling

The interface ports of the RX-PAD are concealed by a metal plate cover for protection. Prior to cabling RX-PAD, remove the cover by unscrewing the two screws, as shown below:

The RX-PAD ports are shown below:

L-R	Description
1	LAN PoE port
2	HDMI for external video ingest*
3	USB Type A Super Speed*
4	USB Type C*
5	DC Jack for 12V/2A power supply adapter

*For future implementation.

5. Powering Up (PoE)

RX-PAD receives its power from the Ethernet cable (PoE). Therefore, once you've connected the Ethernet cable to the RX-PAD's network port (ETH), RX-PAD powers up.

6. Pairing RX-PAD with Teams Rooms on Android Device

To pair RX-PAD with a Microsoft Teams Rooms on Android device (e.g., AudioCodes RXV81 or RXV200), please see [RX-PAD Meeting Room Controller Pairing Guide](#).

7. Managing RX-PAD

RX-PAD is managed by AudioCodes Device Manager. Management includes (but is not limited to):

- ✓ Monitoring
- ✓ Firmware management / upgrade
- ✓ Alarm management

8. Using RX-PAD with a Teams Rooms on Android Device

Item #	Description
1	Press the back button to return to the previous screen.
2	Press to return to the home screen or long press to open the device's Settings screen.
3	Press to access the Camera Settings screen.
4	Press to open Microsoft Teams and device settings menu.
5	Click to join a scheduled meeting.
6	Passive Infrared (PIR) motion sensor (hidden). Upon sensing motion, it wakes up the RX-PAD from screensaver mode, automatically lighting up the screen to greet the user.
7	LEDs: <ul style="list-style-type: none">■ Solid red indicates in a meeting.■ Solid green indicates the RX-PAD is online and signed in.■ Flashing red indicates incoming invite to join a meeting.

9. Advanced RX-PAD Functionality

Once the RX-PAD is paired with the Teams Rooms on Android device, on the RX-PAD you can scroll down from the top to gain access to additional functionality:

- **Teams** – refreshes the UI of the device.
- **Settings** – enters the device settings menu.
- **Camera settings** – opens the Meeting Teams Room on Android device camera settings.
- **Remote keyboard** – controls the Meeting Teams Room on Android devices.

10. Specifications

For RX-PAD technical specifications, refer to the [RX-PAD Datasheet](#).
